UpToDate Advanced

The next generation of interactive clinical decision support

"With our vast footprint of hospitals, clinics and senior living facilities across 26 states, reducing variations in care is a critical part of our efforts to improve outcomes and increase patient safety. The interactive pathways in UpToDate Advanced have helped us streamline workflows and harmonize clinical decision-making across care teams and locations."¹

HEIDI TWEDT, MD, CMIO AT SANFORD HEALTH, U.S.A

84% of clinicians agree that using UpToDate Pathways **modifies clinical decisions.**

83% of clinicians agree that using UpToDate Pathways **decreases unnecessary testing, treatments, and procedures.**²

UpToDate[®] Advanced provides clinicians with interactive clinical pathways for addressing common conditions associated with unwarranted care variability, and concise monographs that help clinicians interpret abnormal lab results and determine appropriate next steps.

More than 1,000 hospitals and health systems around the world have upgraded to UpToDate Advanced as part of the trusted clinical decision support they provide to their care teams.

Based on clinical content in UpToDate and developed with our more than 7,300 physician authors, editors, and peer reviewers, UpToDate Advanced can help you:

- Reduce your investment required for **rapid enablement, ongoing development, and expert maintenance** of trusted clinical guidelines.
- **Increase your clinicians' confidence in decision-making** by guiding them through interactive decision points that are unique to each patient – including those with co-morbidities and other complex presentations.
- **Accelerate and improve your team's adherence to best practice guides** by making them conveniently accessible and actionable when and where care decisions are made.

**Be Future-Ready Now:
More than a solution,
an investment in
clinical effectiveness.**

When partnering with us, you can extend the value of UpToDate for your care teams and organization with:

Customization: UpToDate[®] interactive pathways can be adapted to meet your institution's local practice guidelines by adding supporting text, embedding links, and modifying medications and more.

Formulary integration: Prescribers can see which drugs are available, restricted, or recommended on your list within UpToDate Pathways with Lexicomp[®] Formulink, our expert drug reference solution.

Clinical decision support in your EHR workflow: We partner with healthcare providers and EHR vendors to deliver impactful integration within health records.
