Updated
Daily

- **The Ovid MEDLINE® Difference: the industry's most powerful search, time-saving workflow tools, and easy linking to your full-text journal holdings!**
- **Access to publisher-provided ePub Ahead of Print records, updated daily**
- **Access to In-Process and other non-indexed citations, as well as 25,000 PubMedCentral book records**
- **More precise searching with proprietary mapping Medical Subject Headings (MeSH)— plus customizable search mode options**
- **Includes all citations found in PubMed**
- **An enhanced value, offering access to full text for over 1,000 open-access journals from the most prestigious medical and health science publishers**

Ovid MEDLINE is a must-have resource for all healthcare professionals and researchers to:

- Conduct systematic reviews
- Teach search strategies
- Follow drug development and clinical trials
- Find evidence to change practice
- Find data on prognosis or case studies
- Find qualitative studies to help with diagnosis
- Aid clinical decision-making regarding therapies, examining benefits, contraindications, and risks
- Identify the latest practice guidelines, systematic reviews, and meta-analyses to help reduce or eliminate medical errors
- Conduct comprehensive research on a medical topic to prepare presentations, develop and write grant applications, or to write papers for publication
- Find health services research to improve healthcare delivery
- Identify individuals with expertise in a medical topic for possible consult
- Find innovative ideas for improving many healthcare problems
- Track topics and authors in your discipline to stay current
- AVOID missing critical information on a disease, condition, or drug—historical or current—that could impact clinical trials or clinical decision-making

Ovid MEDLINE®

Ovid MEDLINE is extremely broad in scope, with content in all areas of biomedicine and health produced by the National Library of Medicine, including:

- AIDS
- Allied Health
- Animal Science
- Basic research
- Behavioral sciences
- Bioengineering
- Biology
- Biophysics
- Chemical sciences
- Chemistry
- Clinical care
- Complementary medicine
- Education
- Environmental health
- Environmental science
- Health policy
- Health services research
- History of medicine
- Marine biology
- Molecular biology
- Nursing
- Plant and animal science
- Public health
- Toxicology
- And much more!

Award-Winning Support and Consultative Services

- Ovid's award-winning support teams help implement tools into your library for the most optimized deployment, promotion, training, configuration, and customization.
- 24/7 support is available in over 20 different languages.

The global Customer Engagement team has attained best-in-class recognition through Omega Management Group's NorthFace ScoreBoard Award™ for superior customer satisfaction scores for the last five years running.

UPDATED DAILY, Ovid MEDLINE offers the best research solution for basic and advanced users.

The Ovid MEDLINE® Difference

Ovid's Precision Search + Advanced Time-Saving Tools:

- **Precision searching is easier on Ovid** based on our proprietary mapping to Medical Subject Headings (MeSH®) developed and maintained by the NLM—Ovid allows customers to personalize their preferred search mode with a large variety of customization options.
- **Easily view and navigate the MeSH tree** with a few simple clicks to the desired term(s).
- **NEW! Term Finder**, available in Advanced Search, offers streamlined access to MeSH, definitions from Stedman's Medical Dictionary, and related terms from the Unified Medical Language System (UMLS).
- **True Natural Language Processing search (Basic Search mode)** easily provides relevant results for novice users, executing Ovid's proprietary lexicon, which also includes the UMLS of which MeSH is a part.
- **Improve workflows** using the "citation format" so users can customize which of the MEDLINE fields they want displayed when browsing results.
- **Multi-file search** across books, journals, and up to 150 database segments at a time, such as EMBASE®, BIOSIS®, EBMR, PsycINFO®, Current Contents, and many more.
- **Edit and annotate your search history.**
- **Clinical Queries from McMaster University—customized for Ovid!**
- **Special Ovid search filters** - Adverse effects, Covid-19, and many more fully documented and referenced search hedges.
- **Search History is well-organized;** Ovid will renumber the sets and retain the order of your viewing.
- **Search History is on the same page as results;** the display can either be opened or closed and search statements can be displayed in either ascending or descending order.
- **Construct more precise searches** with operators for searching for the adjacency and frequency of words.
- **Quickly narrow search** by subject/author/journal.
- **Ovid displays which search terms were used in the search.**
- **Citations in the Results Display can be annotated.**
- **Unique Ovid field—'Multipurpose field' using '.MP.'** searches in the title, abstract, original title, name of substance word, subject heading word, keyword heading word, protocol supplementary concept word, rare disease supplementary concept word, and unique identifier.
- **Customization of commonly used 'limits'** is available in both Basic and Advanced Search modes.
